-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 44-46 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the original claims specified an oil as the dust reducing additive. The wax dust reducing additives of these new claims are not consistent with the originally presented "oil" dust reducing additives.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 44-46 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 35, 43 and 47-50 are rejected under 35 U.S.C. 102(b) as being anticipated by Williams, Struss et al., Patel or Smith et al., for reasons cited in the previous action.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 27, 28 and 36-38 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, 35 U.S.C. 103(a) as being unpatentable over Williams, Struss et al., Patel or Smith et al., for reasons cited in the previous action.

Response to Arguments

6. Applicant's arguments filed 06/07/2005 have been fully considered but they are not persuasive.

7. Regarding the 102 and 102/103 rejections, all the references teach the subsequent addition of water (a solvent—consistent with a dust reducing additive) to the joint compounds prior to application (Williams, col. 3, lines 64-65; Struss, et al. claim 1; Patel, col. 10, lines 45-47; and Smith et al., claim 1).

Allowable Subject Matter

8. Claims 39-42 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims, limited to the elected species.

9. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art was found to teach a method of reducing the quantity of dust generated by a drywall joint compound comprising the steps of

a) providing a drywall joint compound comprising filler, water, binder and at least one of a defoamer, wetting agent, preservative, fungicide, thickener, non-leveling agent, surfactant and solvent; and

b) subsequently adding a sufficient quantity of dust reducing additive to the provided drywall joint compound, wherein said dust reducing additive comprises at least one of oil.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1713

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
